Elenco delle Pubblicazioni

*The Bordiga surface as critical locus for 3-view reconstructions*
Marina Bertolini, Roberto Notari, Cristina Turrini

*Generalized fundamental matrices as Grassmann tensors*
Marina Bertolini, Gian Mario Besana, and Cristina Turrini

*Critical loci for projective reconstruction from multiple views in higher dimension: a comprehensive theoretical approach*
Marina Bertolini, Gian Mario Besana, and Cristina Turrini

*Threefolds in P^6 of degree 12*
Marina Bertolini and Cristina Turrini

*Linear Pose Estimate from Corresponding Conics*
A. Alzati, M. Bertolini, A. Borghese, I. Frosio, C. Turrini

*On the ampleness of the normal bundle of line congruences*
Enrique Arrondo, Marina Bertolini, Cristina Turrini
Forum Math. 23 (2011), 223–244

*Applications of Multiview Tensors in Higher Dimensions.*
Marina Bertolini, Gian Mario Besana, and Cristina Turrini

*Tracking 3D orientation through corresponding conics*
Alberto Alzati, Marina Bertolini, Alberto Borghese, Cristina Turrini

*Reconstruction of Some Segmented and Dynamic Scenes: Trifocal Tensors in P4: Theoretical Set Up for Critical Loci, and Instability*
Marina Bertolini, Gian Mario Besana, and Cristina Turrini
Instability of Projective Reconstruction of Dynamic Scenes near Critical Configurations.
Marina Bertolini, Gian Mario Besana, and Cristina Turrini

Instability of Projective Reconstruction from 1-view Near Critical Configurations in Higher Dimensions,
Marina Bertolini, Gian Mario Besana, and Cristina Turrini

Critical configurations for 1-view in projections from Pk to P2,
Marina Bertolini, Cristina Turrini

Focal loci in G(1,n)
Enrique Arrondo, Marina Bertolini, Cristina Turrini

Low degree 3-folds in P6
Marina Bertolini, M. Lucia Fania

Two dimensional scrolls contained in quadric cones in P5
Alberto Alzati, Marina Bertolini, Gian Mario Besana

A focus on focal surface
Enrique Arrondo, Marina Bertolini, Cristina Turrini

Quadric bundle congruences in G(1,n)
Enrique Arrondo, Marina Bertolini, Cristina Turrini

Surfaces in P4 with no quadrisecant lines
Marina Bertolini, Cristina Turrini

Congruences of small degree in G(1,4)
Enrique Arrondo, Marina Bertolini, Cristina Turrini

On the class of some projective variety
Edoardo Ballico, Marina Bertolini, Cristina Turrini

Projective normality of varieties of small degree
Numerical criteria for very ampleness of divisors on projective bundles over an elliptic curve
Alberto Alzati, Marina Bertolini, Gian Mario Besana

Codimension 2 and 3 pluricanonical embeddings in Projective Spaces
Marina Bertolini

Projective varieties with degenerate dual variety in char. p
Edoardo Ballico, Marina Bertolini, Cristina Turrini

Classification of Smooth Congruences with a Fundamental Curve.
Enrique Arrondo, Marina Bertolini, Cristina Turrini
Projective Geometry with applications - Ed. E. Ballico.
Lecture Notes in Pure and applied mathematics- 166 (1994), pg.43-56, Marcel Dekker ed.

Sulla razionalita' delle 3-varieta' di Fano con B2≥ 2
Alberto Alzati, Marina Bertolini
Le Matematiche, 47 (1992), pg. 63-74.

Quartic threefolds containing two skew double lines
Alberto Alzati, Marina Bertolini

On the rationality of a certain class of cubic complexes
Alberto Alzati, Marina Bertolini

On the automorphisms of some line congruences in $\mathbb{P}^3$
Marina Bertolini, Cristina Turrini

On the problem of rationality for some cubic complexes
Alberto Alzati, Marina Bertolini
